Our facility

Our house is located right in the middle of a residential state at the edge of the city of Dülmen. This location allows us to go on excursions to the nearby wildlife park, to greenfields or the city centre. Besides the generous facilities our kindergarten also provides close-to-nature exteriors and numerous playing opportunities.

The provider of our establishment is the AWO subdistrict Münster - Recklinghausen. The provider’s concept as well as the law of children’s development are the basis of our pedagogical task. We supply education and painstaking care in five groups. We care for children from the age of 4 months up to the start of elementary school.

Since 2006 we are a certified family centre.

The aim of our pedagogical work

is to lead the children to a positive self-perception, self-reliance and independence as well as to social skills. We accompany our children under holistic aspects of their personal development. We challenge them and we support them in every possible way. The situation-related approach is the basis of our work.

Specific features of our facility
